ISBN: 0824708644 Title: Dielectrics in
Electric Fields — Power Engineering,
19 Author: Gorur G. Raju Publisher:
CRC Publication Date: 2003-01-01
Number Of Pages: 592

Comprehensive and clear-cut, this
introductory volume examines the
influence of electric fields on dielectric
materials - exploring their distinctive
behavior through well-established
principles of physics and engineering
and recent literature on dielectrics.

by:

Series Introduction Preface Ch. 1
Introductory Concepts 1 Ch. 2
Polarization and Static Dielectric

Constant 35 Ch. 3 Dielectric Loss and
Relaxation-I 97 Ch. 4 Dielectric Loss
and Relaxation-II 161 Ch. 5
Experimental Data (Frequency Domain)
197 Ch. 6 Absorption and Desorption
Currents 281 Ch. 7 Field Enhanced
Conduction 329 Ch. 8 Fundamental
Aspects of Gaseous Breakdown-I 383
Ch. 9 Fundamental Aspects of Electrical
Breakdown-II 439 Ch. 10 Thermally
Stimulated Processes 475 Ch. 11 Space
Charge in Solids Dielectrics 515 App. 1
Trade Names of Polymers 557 App. 2
General Classification of Polymer
Dielectrics 559 App. 3 Selected
Properties of Insulating Materials 561
App. 4 Relative Ranking of
Thermoplastic Polymers 567 App. 5

Selected Properties of Polymer Insulating Materials 569 Index 571
